**Amendments to the Specification:**

Please replace the paragraph at page 14, starting at line 11, with the following amended paragraph:

Fig. 5C is useful to explain trimming of the edge roughness which is smoother than that in Fig. 5B or 5G~~A~~. The characteristics as shown in Figs. 5B and 5G~~A~~ do not appear in this case and characteristics resembling those of mask proper trimming in Fig. 4 are obtained.
